

# Microwave oven FOR HEATING ASPHALT

## Microwave Oven

Optimized for asphalt repairs up to 2 m<sup>2</sup>.

Delivers perfectly heated asphalt when you need it

Provides complete autonomy even during a lack of asphalt availability in winter

Gentle microwave heating does not degrade asphalt binder

Prepares the exact amount – No unnecessary waste

## Basic Technical Parameters

Depth x Width x Height	580 × 600 × 1600 mm
Weight	50—120 kg*
Asphalt tank volume	25 kg

\* Weight varies by model.

# Model line - FUTTEC® microwave ovens

Model	Power (kW)	Heating speed (min.)**	Min. electricity source parameters
FTMO 1	1	30	230 V / 1 phase / 2 kW
FTMO 3	3	20	230 V / 1 phase / 4 kW
FTMO 6	6	12	400 V / 3 phase / 7 kW
FTMO 12	12	6	400 V / 3 phase / 14 kW

\*\* Heating from 15 ° C to 145 ° C
